Ingredients

For the Soup

- 1 pound watermelon, roughly cut into chunks
- 1 pound plum tomatoes, roughly cut into chunks
- 1/2 English cucumber, roughly cut into chunks
- 1 garlic clove, roughly chopped
- 1 red bell pepper, cored, seeded, and roughly cut into chunks
- 1/2 green bell pepper, cored, seeded, and roughly cut into chunks
- 3 tablespoons sherry vinegar
- 1/4 cup [extra virgin olive oil](#)
- 3/4 teaspoon fine sea salt
- 1/4 teaspoon [smoked Spanish hot paprika](#)
- 1/8 teaspoon freshly ground black pepper

For the Garnish

- 1/2 cup diced watermelon
- 1/4 English cucumber, diced
- 1/2 green pepper, cored, seeded, and diced
- 1/2 small red onion, diced
- 1 tablespoon minced mint or basil leaves
- 1 tablespoon [extra virgin olive oil](#)
- Freshly ground black pepper

Instructions

1. **Blend the soup.** Add the chopped watermelon, tomatoes, cucumber, garlic, red pepper, green pepper, vinegar, olive oil, salt, paprika, and black pepper to a blender. Puree on high speed until very smooth, about 2 minutes. Depending on your blender's capacity, you may need to work in batches.
2. **Chill the soup.** Transfer the gazpacho to a large bowl or pitcher. Cover and refrigerate until chilled, at least 1 hour, preferably overnight. With a longer rest, the flavors intensify.
3. **Just before serving: make the garnish.** In a small bowl, toss together the diced watermelon, cucumber, green pepper, red onion, and herbs in a small bowl.
4. **Serve.** Divide the soup among the 4 bowls. Top the soup with a small handful of the garnish. Drizzle with some extra-virgin olive oil and sprinkle with a grind of black pepper.

- Watermelon isn't the only summer fruit that works for this gazpacho recipe. Try swapping the same weight of fresh strawberries or pitted cherries in place of the watermelon.
